This is a letter to confirm that Yuko Toyota Car Club intends to provide shared car club vehicles in Residential development at Royal Canal Park Dublin 15 should the planning application and build be successful.

Toyota Motor Corporation chose Dublin as its global launch city in 2016. Since then the car sharing service has grown to 3,000 members in Dublin with ambitious plans to expand this service up to 2022.

The Department of Housing's Design Standards for New Apartments - Guidelines for Planning Authorities 2018 outline: "For all types of location, where it is sought to eliminate or reduce car parking provision, it is necessary to ensure... provision is also to be made for alternative mobility solutions including facilities for car sharing club vehicles." Each Yuko self-charging hybrid has the potential to replace the journeys of up to 15 private cars*. *Boston Consulting report 2017

Yuko Toyota Car Club members sign up online and can book cars via the mobile app. Our YUKO fleet will always avail of the most advanced technology to reduce or eliminate our carbon footprint.

Currently our fleet is running at 62% zero emissions*. *Tested by UCD study 2019

Yuko is ideal for residents who only need occasional access to a car such as families who only need a second car infrequently, and for others who would like occasional access to a vehicle of a different type than they use day-to-day. We would anticipate that the Yuko Cars available at Royal Canal Park would supplement the public transport options available to this community.

For any queries, please do not hesitate to contact me.

Kind regards,

A handwritten signature in blue ink, appearing to read "Aiden Connolly", is written over a horizontal line. The signature is fluid and cursive.
